

Recharge Center Rate Establishment Statement

(to be used as needed for grant proposals)

In accordance with Uniform Guidance, West Virginia University requires recharge centers are to operate on a breakeven basis and to develop rates based on costs allocable to the recharge center. Costs for rate development may include salaries, benefits, materials, supplies as well as other allocable charges for the service being provided. Each service is billed to users based on a schedule of rates that does not discriminate between federally and non-federally supported activities.
