- **Reasonable** costs are those in which the nature and amount of the expense reflect the action that a prudent person would have taken under the circumstances prevailing at the time the decision to incur the cost was made.

- A cost is **allocable** to a particular project if it is incurred to advance the scope of work and is assignable to the project in proportion to the relative benefit received.

- **Consistent** treatment refers to treating costs incurred for similar purposes in like circumstances in a like manner.

2.3. Costs, including those charged to cost share and program income funds, also must conform to any limitations or exclusions specifically set forth in federal regulations or in the sponsored project agreement.

2.4. Costs that are expressly unallowable shall be identified and excluded from any billing, claim, application, or proposal applicable to a sponsored agreement.
